## Life Time Financial Services & Income Proposals

### Open Client Confirmation Recommendation Letter

Presented By: James S Davis Jr, President/CEO/Founder & The Executive Advisory Council

In the beginning we have found that a number of our "Private Members" who must be approved for access to our extraordinary income producing programs, once educated about how the truly wealthy have learned the discipline necessary to OWN their income portals for life....never fear becoming poor or settling for mediocrity as a lifestyle.

You possess the good fortune of intelligence to sort amongst the thousands of financial opportunities available today. Here at the *Six Figure Club*... we have already had the benefit of over 40 year experience and gained the KEY EDUCATION that the top 5% of the world's wealthiest individuals and companies have secured for themselves.

We have given our time tested advice and financial recommendations to them in exchange for them releasing their closest guarded secrets and financial "*Success Formulas*" to me personally. The common thread that connects the wealthy is that 100% of all their income is derived from *implementing leverage* and the use of "*Other People's Money*."

---

The truth is, in your specific case since your earned income is not sufficient to create any sustainable monthly income profits or from your investments, *you like 95% of the worlds population will not be capable of creating the level of financial security you desire.*

The remedy to your problem is to seek out long term profit based benefit programs that produces immediate short term income that will become a leverage-able asset that can be compounded into our opportunity to join "*The Inner Circle of Wealth*." Lifetime multiple rivers of income are the mandate we strive to implement for each of our members.

The following pages are specific recommendations that would assist you in your search for financial independence. Whether you have a One Billion Dollar goal utilizing a trust fund left to you by one of the Rockefellers, even it is not going to occur in the short run. Yet the \$100,000,000.00 (One Hundred Million) mark may be approachable if you can acquire and maintain the discipline we promote throughout our website portals.

As a *Financial MENTOR* I live to guide my closest business partners and personal friends to the place few have known or will ever experience in their lifetimes. The rules of this program are in stone.... We offer a minimum 10X ROI over the current vehicles you have your funds tied up in. Example: If you are earning 3% on \$100,000.00 = \$3,000 (you have in the bank, mutual funds, stock, CD's, etc.,) We have produced 10X that 3% = 30% + = \$30,000 ROI annualized profits.

Please understand these are our "Passive Investors," where our financial partners are labor free and have no obligation to contribute anything but your funds for our firm. We structure the environment where the funds will be converted into physical hard assets (100% Cash) that will in turn use "OPM" to create daily income back to our firm for distribution back to you our *"Silent Partner"* in the form of *Quarterly Profit Checks or Annual ROI if you choose!*

The more substantial your contribution, the greater number of assets are purchased and the compounding of those assets in effect become exponential in nature creating *"Profit Rivers."* Example: \$1,000,000.00 earns a monthly compound rate of .0416% = \$41,666.66 monthly income = \$360,000.00 annually for a 36% ROI and can be paid quarterly if chosen.

---

We also have an investor option whereby when our clients choose to receive an annual earnings payment and forgo the quarterly profit distribution checks, they will be compensated with additional compounded earning percentages as further proof of our ability to monetize not only your money but your time as well.

Example: If you are earning 2.5% annually on \$100,000.00 = The same \$100,000.00 from above invested in this program acquires the same one year holding period but the income would become compounded and could produce = \$32,000.00 annually = 32% ROI.

\*All Examples are based on past experience and are best estimates as to your earning capabilities. When properly chosen, one's returns and profit levels may be substantially more significant when extending the holding periods. If you were to re-invest your monthly profits, you would be compounding your gross profits over the years and reach your financial goals sooner. Upon cleared funds (within our bank) we can create an exact financial Performa as to what you may earn from the participation level you chose.

\*With the examples presented **you can be** earning daily income for you as a "Private Member"

Or

**You are** losing daily income when you continue to follow the path set for you by the financial institutions who retain your profits by using O.P.M. (YOUR MONEY FOR THEIR BENEFIT!)
