### Money Mentors: Education is the Key

Every-body could use a mentor – particular guidance as to some aspect of their lives. Potential financial investors can especially use this kind of guidance when traveling through the maze of regulations, investing, competition and speed that constitutes the financial markets. Education being pivotal for investors, many are seeking out such services to help achieve positive results and ultimately success.

**Six Figure Club** is one company offering the kind of mentorship that empowers clients – both rookies and pros – educating them on managing portfolios, budgeting their assets, eliminating debt, or simply on getting started in a new and exciting venture aimed at amassing wealth.

Here is an example of the Education we deliver 24/7: If you were earning (Zero \$ - Not a Dime) on your \$100,000 Dead Equity sitting in your home and/or any funds/investments you own. You could NOW re-allocate/simply move it by obtaining a (HELOC – home equity line of credit) at an approx. 2.5% annual loan interest rate. By allowing our firm to "Use the Money" we would secure those funds against any loss and pay you 7.5% in a passive income profit check of \$7,500 QUARTERLY = \$30,000 Annually that's 30% R.O.I. in passive income profits... would you do it? After over 40 years of experience in the financial markets and in sales, James Davis, founder and CEO of Six Figure Club, noticed an unfortunate trend. "I found that very few people or companies in the public understand that there are resources out there for obtaining **outstanding returns and financing**," he said. After developing sales relationships over the years, Davis also noticed that many of his clients – whether individuals, families, small business owners, or corporations – never had a **reliable financial mentor** who could advocate for and help them navigate through the Byzantine conduits of the market. Determined to alter this course, Davis set out with a mission. "(My) mission has always been to become a reliable resource for educating the public on the financial world," he told "The Suit."

**Since "The Suit" Magazine as I see it would be the perfect "Conduit" for reaching 100% of its 1.6 million plus subscribers in our joint B 2 B markets...our "Suit" fits your readership as though James Bond were wearing it! Specializing in developing markets that produce "Real Liquid Assets" now a days is difficult to produce but the risk reward ratios have created new market shares in multiple profit centers worldwide for our "Private Members." The Top 400 wealthiest Americans earn at the same rate our partners do... Those 5%'ers earn more profits than the remaining 95% of the world's population! Why do you think I named the company Six Figure Club?**

As the plague of economic uncertainty continues to spread worldwide, many are hesitant to invest their money or even move their assets to a more advantageous position. SFC knows the risk, and offers unique programs to help clients gain a steady stream of substantial income. Their program, called PPS&P (Programs, Products, Services, and Projects), promotes positive returns by encouraging investors to invest in avenues of public necessity that are therefore extremely desirable, reliable, and worthy. "**The Addiction Factor**," as Davis calls it, "is the ultimate solution that everyone will pursue 24 hours a day."

SFC has also developed a community investment portfolios **and take opportunities**. "We have built a if (the client) just doesn't have the the solution," said Davis, noting relationships with over 3,000 private

of lenders to help clients finance **advantage of unique yet finite business** financial lending network globally, so that money to invest in our programs, we have that over his career he has had active and public lenders.

SFC also offers clients specialized financing and re-allocation programs for businesses and individuals alike who wish to eliminate debt and gain financial independence. Using their three-pronged solution program, Davis and his team show clients how to reduce or even eliminate fixed monthly expenses, create a simplified and timely debt payment plan, and give

them an education on how to not only remain clear of financial distress but also how to amass new wealth. “Education is what we do and the end result is the reward you will receive,” said Davis.

**Most** of our “Private Members” in a few short years will earn \$100,000.00. **Many** will earn “Six Figures” annually! **Yes**, we even have members earning in excess of \$100,000.00 monthly....Which **PATH** will you take?

*The True Bottom Line is to **MASTER** the use of O.P.M other people’s money with **LEVERAGE** and reallocation of poorly performing assets/investments/retirement-funds into monthly income streams removing risk along the way.*
