**Highlights:** The truly WEALTHY understand that the language of financial freedom is a process whereby only a handful of men and women can deliver what the world's top earners enjoy. These are the 1%'ers who control the globes economies by their presence alone as "Market Makers."

**Objectives:** Currently in the U.S. alone, about 850 humans are the real movers and shakers when it comes to unlimited wealth. Our mission was to be introduced to a select few of these power brokers and become number #851... whereby you, our private member would share in the extra ordinary financial gains relized by the truly elite.

**Mission Statement:** To be honest, our company statement of our mission reads like this: "*Help more people achieve six figure incomes than any other business enterprise in history*" ....Knowing now that the truth behind it all is ...if you don't know or have access to one or more of those 851 individuals.... you will fail and never will achieve or even touch the wealth we are discussing here.

**Keys to Success:** We have survived over 4 decades of financial decay and have though it all, come out stronger and wiser for it. If you believe that wealth can be achieved thru traditional investment vehicals offered to the general public..... You have bought into the "Big Lie" Here is a undeniable TRUTH.... The law of large numbers controls the profits generated.

**This is the TOTAL BOTTOM LINE TRUTH!!!**

- It's the **LAW OF LARGE NUMBERS** that controls the buying power and those who manage millions of dollars on a daily basis for our "Private Membership" will deliver profits 24/7.

James S. Davis Jr.  
President/CEO/Founder  
Owner of 9 separate world-wide businesses!

**"THERE ARE ALWAYS OPPORTUNITIES THROUGH WHICH BUSINESSES AND INDIVIDUALS CAN PROFIT HANDSOMELY, IF THEY WILL ONLY RECOGNIZE AND SIEZE THEM "**  
J. PAUL GETTY

II. Description of Business.....

A consortium of business enterprises joined together to form a stronger global presence. After working from within the financial giants (John Hancock Investments, Insurance and Financial Services, Marriott Corporation Vacation Ownership Mega-Corporation with 17 brands, and many other Fortune 500 worldwide companies,) we found the PATHWAYS used to obtain sustainable lifetime income streams and now we have harnessed those multiple streams and have created our own "Income Rivers."

**Company Ownership/Legal Entity:** We first opened our corporation over four decades ago in in 1975. We have chosen to re- establish an (LLC) Limited Liability Corporation as our legal structure and will also be establishing for our global partners a legal international structure early in 2016. This is due to the increased earning power in foreign markets and need to interact more closely with the major internation banking systems.

**Location:** Currently in Cape Coral, Florida as we recently left the harsh weather and traffic behind in the nations capital (in Maryland) after several decades in the DC metro area.

**Interior:** Our working inviroment is the best of all worlds as most of our time is traveling to meet potential private members, and or on the phone sealing contracts and sending out our quarterly and annual profit checks. No need to have huge overhead expensive offices since most business is internet based and modern technology has proven to be more cost effective.

**Hours of Operation:** We operate in the Eastern Standard Time Zone of the United States basicly 10:00AM to 7 or 8:00 PM mostly every day (save Sunday.)

**Products and Services:** Best to view our website for a complete overview.

**Suppliers:** We utilize the best providers who have consistancy in delivery and security of our private members

principal investment dollars at the head of their priority lists.

Service: What ever is needed we make sure it gets resolved.

Manufacturing: When we need a vendor to manufacture a product we only engage those who have a solid track record for on time successful end goods for our customers.

Management: Small as currently our network consists of 8 persons handling various responsibilities world wide.

Financial Management: All tax reporting is done through our CPA.

Start-Up/Acquisition Summary: We constantly are updating computers and expanding our database software, website maintainance and ongoing marketing and legal/accounting services.

III. Marketing: We have established a global presence in multiple mediums. Website presence, massive blast video emails, webinars, radio, TV infomercials, live television program interviews, postcards, substantial personal and business referral systems, live public seminars and a constant expansion of our worldwide presence with upto 200 +/- "Super Affiliates."

IV. Market Analysis: We have a virtual limitless available market place. Our dominate buying motive is that nearly 95% of the public doesnot have access to these types of (HYRPIP) High Yield Return Profit Income Programs. By pooling several investors funds, we are creating a entry point for these private members to earn at the same rate as the top 1% to 5% income producers do.

Market Segmentation: Most individuals with sufficient high net worths will be able to reallocate their poorly performing assets they have already developed over the years. While others may have to use leveraged funds from lenders we have secured for their benefit and or any other means that they can access. Qualified and retirement funds are fully able to be transferred in to self-directed fund holding companies (See Broad Financial and our YouTube Video) for reallocation of these funds.

Competition: Other firms generally are very high cost management and or direct investment businesses where several pieces of the customers earnings pie will be eating away most generic profits earned when using these traditional providers

pricing.

V. Appendix.....

**Miscellaneous Documents**

Note to all investors: This contract has a maximum holding period of (5) five years, and you the investor understands that the minimum time frame you will need to invest, will be not less than 12-24 months. Then, at the time your funds are deposited in a (“Pooled Account”) for corporate trading purposes, they will be re-invested when market conditions meet our trading guide lines where they (your total Principal deposited investment funds) will remain in our corporate acct. as collateral and will be 100% secured against any losses.

It is also understood that if you do not request in writing your possible interest in cashing out a partial or total redemption of your original invested funds prior to the maturity period, then your funds will continue to be traded up to a maximum of (5) five years with the holding period ending at that time. You may however request to liquidate your portfolio principal and all earnings at any time after the original minimum holding period chosen has expired. \* The liquidation may occur only after the contracts that are being traded at the time of your written request have matured and become liquid. (Generally within 30-90 days.)

---

↓ ↓ **Example of a Six Figure Club Private Member - Client Transaction:** ↓ ↓

**Real Example:** John and Mary Kennedy (name changed for privacy) for have chosen to re-allocate \$1,000,000 (move to the SFC) several of their poorly performing investment vehicles. They consist of the following:

\$500k from dead home equity (earning 0%), \$200K from an IRA (earning 4% annually), \$300k from a 401K retirement plan (earning 5% annually) for a total annual ROI Earnings of \$8k – IRA & \$15k – 401K and of course -\$0- earnings sitting in your home or other properties) = Total annual profits of \$23,000 where their taxes are deferred till retirement at age 65 (5 years from now.)

\$1,000,000 will be split 50%/50% between our two investment portfolios.

Part (1) of (2) parts

**Projected MONTHLY INCOME Returns For Passive Investment Path (1st Chart)**

\$500,000 is placed in this trading program and they will receive a ROI as follows from this 1<sup>st</sup> Chart:

Level	Approximate Amount Invested	Interest %	Monthly Income	Projected Annual ROI	*12-24 Month Pay-Out PERIOD
6th Level	\$500,000 - \$999,999	2.66%	\$13,300 -\$26,600	32%	\$160,000 -\$320,000

Here the \$500,000 earns a fixed 2.66% per month interest = \$13,300 Monthly Income which = Annual 32% Earning ROI which delivers a \$160,000 in annual PROFITS.

Minus the current 3% (HELOC) home equity line of credit loan interest charge from the bank/lender for letting you borrow your own \$\$\$\$\$\$. \* Note: Check with your tax advisor, although here in the U.S.A. the loan (3%) interest you pay is normally a Tax Deductible Expense. So when you deduct the \$15,000 charge for using your own money (instead of letting your banker use and keep 100% of the profits.)

Your profit of \$160,000 - \$15,000 interest charges = **\$145,000** spendable annual income which if taken would pay you **\$12,083 MONTHLY PROFIT**..... So perhaps you should never pay the loan back and keep your home in tact as your invested funds are fully secured until you choose not to enjoy spending / earning this \$12,083 MONTHLY PROFIT! Remember you are responsible for any taxes due so we recommend that you set aside and pay at least 1 out of each 3 Profit Checks to your investment partner the IRS!

### Part (2)

The remaining \$500,000 is being re-invested into our long term account below with a multi-year minimum holding period up to a maximum (5) five years guaranteed payout account.

**Projected INCOME Returns for Wealth Accumulator  
Investment Path  
(2nd Chart)  
“Multiple Income Streams Create Income Rivers”**

\$500,000 balance is placed in this trading program and they will receive a ROI as follows from this 2nd Chart:

Level	Approximate Amount Invested	Yield %	12-24 Month ROI Cash Out or Liquidation Holding Period
5th Level	\$500,000 - \$749,999	60%	\$300,000 - \$450,000

Here the \$500,000 earns a fixed 60% interest per year = \$300,000 Annual Income Which Deliver’s REAL ANNUAL PROFITS.

There is no cost of funds (unless you borrow them from others) because the money’s are being rolled over or transferred into another pre-qualified tax sheltered holding company (that is A SELF-DIRECTED IRA OR OTHER LEGAL

VEHICLE) and no penalties are incurred because everything was done within the 60 day rule set by the IRS.

\* Note there is a general set-up fee to manage your qualified acct and all those details are fully defined when using any of our lending partners.

Now, your profits will grow exponentially and be re-invested several times during the minimum holding period of 12-24 months up to a maximum (5) year period.

Your profit of \$300,000 - \$1,500 (approx. qualified holding company set up fee) = **\$298,500 annual income earned** (without labor, worry or risk) which 100% accumulation is tax-deferred until such time you redeem those profits.....

**\*You need to review both charts to see what the best blend income program fits your income needs.**

**"Most of our "Private Members" in a few short years will earn \$100,000.00 in Profits. Many will earn "Six Figures" annually!**

**Yes, we even have members earning in excess of \$100,000.00 even seven figures monthly....**

**Which PATH will you take?"**
