Would you accept this Proposition?

If you could qualify for a **\$100,000** loan, like a (HELOC) home equity line of credit, where you earn **NO interest income** on/from your **DEAD EQUITY**... Would you allow me to pay you for the use of those funds for 1,2,3,4, even 5 years? You can start with a minimum of \$5,000 to \$1,000,000+ (no-limits.)

You can also use any Qualified Tax-Sheltered Retirement funds, stocks, literally any form of investment dollars or non & low producing assets (like Real Estate) to create access to our **“Pathway to Wealth.”** Passive Income Producing Programs.

Now, the loan interest rate (say 2.5%) on the (\$100,000) loan may cost approx. \$2,500+/- per year to borrow those funds and you will need to pay (that interest back) annually using the profits we could generate from the **use of those funds** for each year, we together would like to have this arrangement.

At the end of the first year you should have earned 30% profit, if you take a **quarterly profit checks** of \$7,500 at the years end, you would have received (4) quarterly profit checks for a grand total of...

\$30,000! So, the real question is would you trade a \$2,500 annual cost for an annual \$30,000 PROFIT?

Or, if you don't need the quarterly distribution profit checks and choose to allow them to be compounded, you would receive a 2% Bonus for a Grand total of **\$32,000 R.O.I. ANNUALLY.**

Note: You, in most cases would receive a tax deduction for this interest payment you pay each year. Consult your tax advisor on this. In this scenario, you will also be required to pay taxes on any funds you earn and or receive as a distribution. **Unless... Unless... Unless...**

Unless... You would like to rollover, transfer, and or move any tax sheltered funds in to one of our fully **QUALIFIED SELF-DIRECTED RETIREMENT FUND PROGRAMS.** Then your profits may be tax deferred and sheltered until you withdrawal any of your earnings.

I recommend structuring the loan as an interest only pay back option so the principal stays with us to compound and you can always repay the original loan back if you choose... **but why would you...** if you could trade \$2,500 at 2.5% tax deductible cost of doing business for a 30% or 32% Annual ROI?

Did I mention your **PRINCIPAL** funds you deposit will be secured and held as collateral or only invested in guaranteed transactions where you will receive your earnings rate that is seen on our website at this link called: **Your Earnings** for the duration of the holding period so you will suffer no losses (NONE) not a penny during this period?

You should understand by now it's the **LAW OF LARGE NUMBERS** that controls the markets and individuals have no power and that is why 95% of investors worldwide loose some if not all of their money. **PLEASE... PLEASE... PLEASE... watch this video**  **under this link:** **The Opportunity**

Our private members after viewing this video finally (GOT IT!!!)

Also we have no problems funding each of our Six Figure Club - Members

Only Income Producing Programs.

Once you view our website @ [Home](#) you will find that our two income producing programs offer annual returns from 12% to 36% on the 1st Chart (here you can receive quarterly distributions on (1) one year contracts.) You also can compound your deposited funds when you leave your monthly/earnings/profits in your account for a minimum holding period of 1,2,3,4, and even 5 years. The 2nd Chart produces a minimum of 15% to 75% or more R.O.I. (Return of Interest.)

Your next step is to simply request access to becoming one of our **"Private Members Only Club."** At this time, submit your request by completing our [Contact us](#) link and our... one on one, personal attention will follow. *Need an excellent income opportunity* as a business/employment, check out our [Affiliates](#) link. Our Affiliates also enjoy Six Figure INCOMES as well!

***I look forward to your call, written response and thoughts.
