RE: Monthly & Annual Very Serious PASSIVE INCOME & BUSINESS OPPORTUNITY

I am on a QUEST... perhaps you can assist me, so we can share in the ongoing financial rewards. I’ve invested the past 40+ years of my life to establish a global **NEW FINANCIAL PORTAL** where our “Private Members Investors Club” can reap the benefits from our (HYRPIP) High Yield Return Passive Income Programs. We produce very **SERIOUS** income through a series of (PPSP) Programs, Products, Services and Projects that deliver very strong monthly as well as long term profits.

Our vehicles are spread over many cash-generating income streams that we have successfully merged together all over the world to create “**Income Rivers.**”

Our Three missions are as follows (as seen from within our website.) @ [Home link](#)

All three depend on our ability to secure the proper investment vehicles and control the income flow to meet and surpass the delivery of steady, safe and secure cash-flow requirements to our worldwide “Private Membership!”

Continued...

We have secured multiple vehicles for this purpose and were in hopes you may also qualify as one of our cash-generating income stream beneficiaries of this Very **Serious** Income!

To achieve this you would need to be able to receive multiple profits checks that we produce 24/7. The following (minimum earnings are stated here) @ **Your Earnings** positive cash-generating monthly, annual and multi-year projected returns. *The term “guaranteed” is not widely permitted and rarely used when marketing financial returns. That being stated, **we have always delivered** what we have presented as our projections throughout our website and documents we have sent to our private membership.*

Contract Terms & Conditions for our Financial Partners/Private Members

The following have already been confirmed and are legally under contract to deliver to our firm and our data-base of customers from several joint venture providers.

***** If you would like to share in our income producing portals*****

1. All invested monies/deposits from our worldwide investors networks, would need to be secured and guaranteed not to suffer any losses while in our financial services portfolio managements control. Basically, all funds need to be held as collateralized assets, and/or only traded, when the contracts we enter into can guarantee positive (WINS) *generating secured & fixed pre-determined profit returns.*
2. We have set up **Multiple Corporate Trading - White Label Contracts**, whereby our companies would be the sole depositors into several income producing accounts. All earnings will be paid solely to our firm and we will distribute all predetermined yields (profits) to each of our customers based on their personal or business Investment - Levels they deposited their funds into. (As seen on our 1st and 2nd Charts.) See: **The Opportunity** You will want to watch “**The Truth – Video**” webpage. **Please Simply Open & View:** [Passive Investing The Evidence the Fund Management Industry Would Prefer You Not to See -- Six Figure Club](#)
3. Monthly absolute minimum performance guarantees (on all funds deposited to your firm) to be earned of not less than 5% per month based on the total invested funds held in our Corporate Trading Accounts. * Note: This is in no way stating this is the total earned profits, just the minimum you guarantee each month.
4. Total Liquidity of all earned profits upon demand, quarterly, annually, etc. based on Contract Maturity Dates of not less than 1,2,3,4, or 5 year holding periods.
5. When longer term contracts can be secured (example: Qualified Tax-Sheltered Retirement funds) can be rolled over and placed in Self-Directed accts. (We have a JV for this process) and these Funds may be reallocated back thru our firm to yours, for longer earning periods. These multi-

year contracts would generate profits and also must be liquid upon demand as needed, since a lot of our “Private Members” must report or are required to receive certain dollar amounts as stated by law and all Qualified Investments Tax Obligations must be satisfied for the IRS.

6. On Number #5 above, since you would have the opportunity to exponentially compound those funds over these 1 year to multiple year contracts, we would need to pay our “Super Affiliates” in advance before these contracts would mature, therefore we would need an up-front distribution of future profits (at time of deposit.) Based on our compensation pay-out charts we would project a minimum of 5% - 7.5% of these funds could cover those Affiliates.
7. We are aware of the tremendous income that will occur on such large dollar volume accounts, so when any profits do occur above the minimum performance guarantees, we agree you will produce the minimum 5% per month in guaranteed profits, and when you actually surpass that %, say with a total 7% monthly gross profits percentage, then at the end of each monthly period that passes, on a quarterly basis our firm may elect to cash-out a percentage of those profits and reward our private members with *bonuses paid at the end of their holding periods*.

Note: We don’t plan of total redemption and in many cases believe we would simply reinvest those funds for future growth and profitability as long as total liquidity without any penalties remains in our contract.. The “**Use of Funds**” is best defined when viewing our custom built website...

8. At a date not too far in the future... If you are serious about our relationship and can believe that we have access to very serious Fund \$\$\$\$\$\$ amounts from pensions to mega-multi-millions held in dead equity real estate properties to every ones abilities to secure financing (we have several thousand private and public lenders at our disposal.) We welcome your participation in the SFC.
9. As investors and or one of our “**Super Affiliates**”..... I hope we can come together and form this very profitable venture as time is of the essence! See link @ [Affiliates](#)
